

Hi there!

Great News!

The Seatory R series | Retransfer card printers have recently obtained a range of product certifications. Seatory, through their ongoing product development have gained industry certifications for CCC, CE, FCC, RoHS and UKCA, which means that the R series | Retransfer card printers are now well placed to sell in the global market place.

Does Technology Promote Loneliness?

Technology has made communication more efficient but it's not personal communication.

Pick up a phone, hear a friendly voice on the other end.

The team at PMC offer support and service for all of our products.

Prolong the life and quality of your business cards.

The 3 'R's – Reduce, Reuse, Recycle – Are all about minimising the amount of waste we produce, reusing products as much as we can, and remembering to recycle any materials that can be used for a new purpose.

Do as little or as much as you can.

The typical plastic business card has a longer life than a traditional paper stock card, which means that your customers will retain them longer, and your business's contact details on the card will last just as long!

Our Zebra ZXP1 and ZXP3 plastic card printer ribbons and cleaning kits are on sale and **won't be restocked** so get in quick!
