Hello from the Team at PMC!

Already using **RFID Readers** or you've always thought they'd be a good asset to have? Now's a good time to take a look.

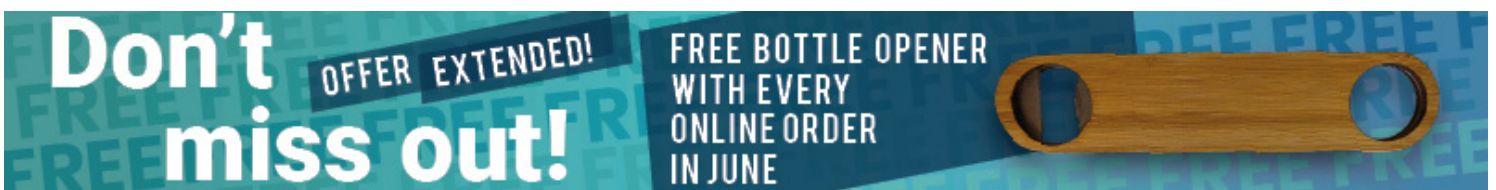

Are you over **Courier Bag waste**? The **Enviro360 Recycle Bag** has been launched – read on to see how you can reduce yours and recycle it into something reuseable.

And yes, our **Online Sale** is still on, so get in quick!

A variety of RFID Readers that offer solutions for different work scenarios.

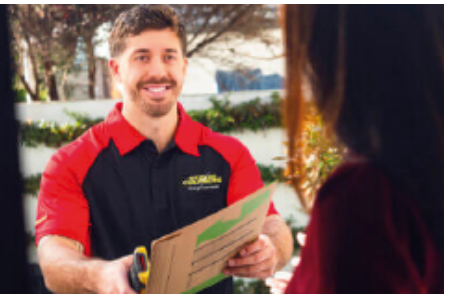

RFID Readers give you the ability to track or process stored data in a tag back to a computer or database. Both Hand held and desktop models are available. If you can't find what you're after, **give us a call** to see if we can sort what you need.

That's right, our **Online Sale** has been extended. All purchases **over \$100** off the website will receive a **FREE Bottle Opener!** Offer ends 30 June 2026. **So, don't miss this opportunity to pick up some real value for money deals!**

Our freight charges need to increase, yet again . . .

We know cost increases are never easy.
So we've only passed on the true increase.

Our **Freight Charges** are about to rise again. Unfortunately, we'll need to pass this increase on to our customers. From 29 June 2026 we will incur a rate rise of 4.4% from our courier service provider.

We're doing our best for the planet, are you?

The new **Enviro360** Recycling bag from NZ Couriers gives plastic courier bag waste a second chance!

Ever wondered if there's a way to recycle used courier bags? Read on!

Help make a difference to the planet like we are at PMC digital, by using NZ Couriers new **Enviro360 Recycle Bag**. Bags get picked up when there's surplus space further reducing our emissions footprint. NZ Couriers have partnered with SaveBOARD to recycle used courier packs. Yes, even with the used labels and tickets still on! They're recycled to become environmentally friendly building materials that can be repeatedly recycled.

Now that's got to be worth doing!
